

FF-SERIES

EVERGUSH FIRE-FIGHTING PUMPS

- All in one design
- Motor or diesel engine driven
- Wide range of spec provided
- For fire hydrant, sprinkler, foam

EVERGUSH SUBMERSIBLE PUMPS

- Drainage of sump, wastewater and sewage.
- Equipped with motor overload protector.
- Auto float switch is optional.
- High efficiency for less power consumption.

ECDL-SERIES

VERTICAL MULTI-STAGE CENTRIFUGAL PUMP

Vertical structure for space saving.

Low noise operation.

Multi-stage Impellers design provide diverse pressure options.

Main components of pumps made in stainless steel ensure clean water provided.

Great performance for energy conserving and electricity cost saving.

EVERGUSH CENTRIFUGAL PUMPS

- Water circulation for chiller, cooling tower, air-condition facilities.
- Water supply for booster system, fire protection, industrial facilities, swimming pool system, buildings, factories, hotels,...etc.

CPS-Series CP-Series IL-Series EGP-Series

ESS-Series ISO-Series XA-Series

ECA-SERIES

不銹鋼同軸離心泵

Stainless Steel Close-coupled Centrifugal Pumps

- 接液面不生鏽・用水潔淨安心・
Wet parts are made of Stainless steel.
- 運轉低噪音・性能效率佳・
Low noise operation, high efficiency.
- 用途廣泛・體積小不佔空間・
Broad applications, space saving.

不銹鋼變頻恆壓泵組(採用ECA泵)
Inverter constant pressure pump set(Adopt ECA pumps)
